### USER MANUAL FOR THE FORM PORTAL

To use NoMA's Form portal you have to log in with a user account. If you don't have a user account, you have to create this. This can be done in the Form portal's login-page.

#### Register a user

The following steps will explain how an account is created:

1. Click "Sign up now"

	Direktora	atet for ske produkter	
	Sigr	n in	
Sign in wi	th your ema	il address	
Email Address			
Email Addr	ess		
Password

	Read more about processing form data

4. Scan the QR-code with the Microsoft Authenticator app. If you don't already have this app, you can download it from either Google Play or App Store on iOS. After scanning the code your Form portal user account will be automatically added as an entry to the app. If you want you can change the name of the entry by clicking the settings icon after clicking into the entry.

5. Write the verification code from your Authenticator app into the field for verification code in the sign up page.

NB! If you wait too long before entering the code your session will expire. Your user has already been registrated, so in this case you have to log in to your account and set up Authenticator.

Don't hav	e an account?	Sign up no	N	

2. Enter the code from the Authenticator app in the field for verification code. This code is from the entry you made to your Authenticator app in step 4 when registering your user account. If you have a new phone or for some other reason need to re-register your account in the Authenticator app, please send an email to post@dmp.no where you specify the e-mail address of the account you need to register.

NB! If you wait too long before entering the code your session will expire. In this case you have to log in to your account again.
